H. H. THE NIZAM'S GUARANTEED STATE RAILWAY Co., Ld.

ADVERTISING AT RAILWAY STATIONS.

THE PROPRIETOR of the *Bombay Gazette* Press, having leased from the NIZAM'S STATE RAILWAY COMPANY the entire rights of advertising at all the Railway Stations belonging to the Company, is prepared to contract with parties desirous of posting notices or advertisements on the lines.

The Cantonment of SECUNDERABAD, as is well known, contains the largest military garrison in India—a garrison comprising over 5,000 British and native troops. Contiguous to it is the Cantonment of BOLARUM, garrisoned by two regiments and one battery of the Hyderabad Contingent, all officered by Europeans. South of Secunderabad, about 4 miles, are the suburbs of Hyderabad, containing the Nizam's regular troops, about 5,000 in number, officered mostly by Europeans—besides a large civil population. It would manifestly be advantageous to firms to advertise at the stations on the above railway, the most important of which are SECUNDERABAD, HYDERABAD, GANGAWARUM, and TANDUR.

The announcements may be in English or in any of the Native Languages.

Insurance Companies, Shipping Companies, Hotel-keepers, Merchants, Traders, and others who wish to force their business on the notice of the public, all alike value the privileges of *Railway Station Advertising*.

There is no reason why the privilege should not be also specially valuable to Advertisers in India looking to the great and increasing number of Native Railway Passengers on the two trunk lines on Western India. Native Merchants, Traders, &c. seeing that they have the privilege of advertising in their own language, would find the publication of their announcements at Railway Stations an infallible means of extending their business.

Advertisers can select the Station at which they wish their Placards posted, and may advertise for any period that may be agreed on. The charges have been fixed on an extremely *moderate scale* to encourage Advertisers to make a liberal use of the new means now offered of making announcements known to the public.

Placards, according to the taste of Advertisers may be printed at moderate charge in Marathi or any of the Native Languages at the *Bombay Gazette* Press. Estimates on application.

RATES.

Board not exceeding 4 feet long and 2 feet broad Rs. 4 per month. For every additional square foot annas 2.

Thus a firm exhibiting a board, say 4 square feet will have the advantage of having their business advertisement read by thousands of Passengers on each station platform for the trifling monthly expenditure of Re. 1. Parties advertising on six Stations or more will be allowed a discount of ten per cent. twelve Stations or more, twenty-five per cent.

The boards to be delivered at the *Bombay Gazette* Office, whence they will be sent by the Lessee to the various stations selected by the Advertiser. In the event of the contract terminating, the boards will be brought back to Bombay at the expense and risk of the Advertiser.

Special arrangements for long periods.

For further particulars apply to the Manager of the "Bombay Gazette" Office, Esplanade Road, Fort

BREAKFAST.

"By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the fine properties of well-selected Cocoa, Mr. Epps has provided our breakfast tables with a delicately-flavoured beverage which may save us many heavy doctors' bills. It is by the judicious use of such articles of diet that a constitution may be gradually built up until strong enough to resist every tendency to disease. Hundreds of subtle maladies are floating around us, ready to attack wherever there is a weak point. We may escape many a fatal shaft by keeping ourselves well fortified with pure blood and a properly nourished frame."—See article of the *Civil Service Gazette*.

DR. DE ROOS' COMPOUND RENAL PILLS

Are a safe and speedy Remedy for the above dangerous complaints, Discharges and Diseases of the Urinary Organs generally, which too frequently harass the sufferer over the best years of life, and end only in an agonizing death. For weakness across the loins, sandy or other deposit in the water, and in all cases of renal or urinary disturbance, they are, indeed, unrivalled. They correct acidity of the stomach, promote the functions of the liver and kidneys, thereby preventing stone in the bladder, &c. Many complaints, long supposed to be nervous, often arise solely from contamination of the blood with certain impurities which should have been carried off by the kidneys. Thousands of testimonials from grateful patients attest their marvellous efficacy. In packages, 2s. 9d. and 4s. 6d.

DR. DE ROOS' PILULÆ VITÆ, OR VEGETABLE LIFE PILLS.

The most wonderful Pills in the world for Biliousness and all Disorders of the Liver, Stomach, and Bowels. Their action is mild yet effectual; they do not gripe or purge, and for habitual costiveness, loss of appetite, disturbed sleep, harassing dreams, wind, indigestion, sick headache, furred tongue, unpleasant taste in the mouth on rising in the morning, sallowness, scurvy, &c., they are of unexampled efficacy; and being prepared solely from the vegetable kingdom, may be taken by the most delicate of *either sex*, equally with the robust, merely regulating the dose according to the printed directions accompanying each box.

Those who are subject to occasional attacks of Biliousness instead of resorting to the old-fashioned blue pill and nauseous black draught, will do well to keep a box of these Pills by them, and never leave home without them: an attack may thus be nipped in the bud by taking a dose or two, which, if allowed to run its course for a few days, would probably almost completely prostrate its unhappy victim. Sold in boxes at 1s. 1½d., 2s. 9d., 4s. 6d., and 11s.

DR. DE ROOS' WORLD-FAMED GUTTÆ VITÆ, OR LIFE DROPS.

The Great European Remedy for Spermatorrhœa, Exhaustion, Nervousness, Debility, Incapacity, Loss of Memory, and all those diseases for which Mercury, Sarsaparilla, &c., are not only employed in vain, but too often to the utter destruction of the sufferer's health. To the people of India, and similar enervating climates, as also all those who by indiscretion in early life, have ruined their constitutions, this miraculous life-reviving tonic will give, as it were, a new existence. This medicine strengthens the vitality of the whole system, gives energy to the muscles, speedily removes nervous fears, renovates the impaired powers of life, and gradually invigorates the most shattered constitution. Equally adapted for the studious and sedentary; the aged and infirm; the nervous and debilitated; as also for delicate females and weakly children. All sufferers from loss of appetite, nervous headache, lassitude, and despondency—too often accompanied with suicidal thoughts—should make immediate and fair unprejudiced trial of this wonderful medicine, which is daily effecting the most remarkable cures in patients who had been given up by the faculty. In all cases of nervous and functional debility (arising from whatever cause), it is truly unrivalled. To married persons especially, this preparation will prove invaluable, giving strength and vigour in place of lassitude and incapacity.—Price, 11s., or four times that quantity, 33s. per bottle, of all the principal Merchants in India.

Purchasers are particularly requested to see that every package of Dr. De Roos' Medicines bears the British Government Stamp, with the words, "WALTER DE ROOS, LONDON," impressed thereon in white letters on a red ground, without which none can possibly be genuine.

EYESIGHT!

THE necessity for proper testing of the sight before ordering Spectacles cannot be overrated. We have the highest medical authority confirmed by daily experience that imperfect glasses, together with the haphazard plan of selection generally employed, are frequent causes of irremediable injury to the sight, and as no present economy can compensate for such a loss, it behoves all to be cautious how they are tempted to use the common Spectacles now so generally sold by those who keep an ill-assorted collection just to complete a miscellaneous stock.

We make this department of our business a speciality, and we claim to have the largest and most complete stock in India. Our Opticians being thoroughly practical men, we can guarantee the correction of the defects and irregularities of the sight by optical means.

DR. A. MENIST'S PERFECT PEBBLES

Have always been and always are by a very long way the best procurable, and owing to the present favorable rate of exchange, we have been able to reduce their prices, which though very little in advance of other Houses the slightly extra cost is more than compensated for by their superiority and perfection.

It is well known to us from experiments that a great deal of discomfort must arise from the use of spectacles with ill-fitting frames, for instance a pair of lenses in frames a little too wide or a little too narrow would compel the patient to look through the inner or outside sides of the lenses or through their prisms instead of through their centre and which must necessitate a call upon the convergence muscles for increased effort at a time when the accommodation muscles are relaxed. This cannot but be a source of discomfort at all times and a source of danger to the eyes. Several instances have been known in which discomfort in wearing spectacles has been removed as soon as lenses of the same power were put into frames adopted to the requirements of the wearer.

Every precaution is taken by us to supply not only the best lenses procurable but also to supply frames in which the lenses are so placed as to make the wearing of spectacles a pleasure.

The half-yearly subscriptions will be half the above rates.

Any other papers and periodicals not included in the above list can also be obtained and supplied.

Subscriptions for 1891 must be remitted the latest to reach this office by the 25th November, 1890.

Arrangements can be made to send the weekly papers direct from England to addresses of subscribers in India, provided they are permanent residents in one station, and subscription is paid for the whole year in advance. A reduction of one rupee per annum on each paper will be allowed for the weekly papers sent direct from London to subscribers, and two rupees on each paper marked thus.* Under this arrangement, however, we cannot be held responsible for any loss in transit by the post.

The monthly magazines and reviews are received in cases by mail steamers in Bombay and reposted soon after arrival, but by payment of an additional subscription of Rs. 4 per annum on each magazine or review, they can be ordered out by post Via Brindisi, which will entitle a subscriber to receiving them about 10 or 12 days earlier than those received in cases. By the payment of this extra subscription a subscriber can also, if he wishes, have his magazines sent to him direct from London to his address, *subject, however, to the conditions and risk mentioned in the preceding para.*

Residents in Calcutta, Madras, Allahabad, Lahore and Poona, where we have Branches, will be supplied with the weekly papers at "Bombay" rates on applying to the respective branches. The monthly magazines and reviews can also be obtained from our Branches on the payment of an additional rupee per year over the "Bombay" rates on each magazine or review.

Notice of changes will be booked on receipt of subscriptions payable by Money Order or draft on any Indian Bank to the Manager, Bombay Circulating Library.

NOTICES.

IMPORTANT NOTICE.

HUBBUCK'S PATENT WHITE ZINC PAINT.

TO Architects, Contractors, Dock Companies, Mill Owners, Railway Companies, Ship Owners and all who are desirous of obtaining a reliable and durable Paint, THOMAS HUBBUCK AND SON (the original Patentees of White Zinc Paint) beg to inform the above that "HUBBUCK'S GENUINE PATENT WHITE ZINC PAINT AND OILS" can always be obtained of the undermentioned well known Firms in Bombay. This Paint has successfully stood the test of all climates for many years, and has an ever increasing demand; it is far superior in pureness of colour, in body, in fineness, and lasting properties to any other Paint; retains its gloss, and when mixed with HUBBUCK'S PALE BOILED LINSEED OIL does not crack or blister, and is not effected by atmospheric changes, salt water, or gas. THOMAS HUBBUCK AND SON knowing the importance of such a Paint to the above, trust their Friends will continue to use this world-renowned HUBBUCK'S PATENT WHITE ZINC PAINT, the quality of which never varies.

HUBBUCK'S PALE BOILED LINSEED OIL.

THOS. HUBBUCK & SON desire to call attention to their special PALE BOILED LINSEED OIL. This OIL is paler than Raw Linseed Oil and therefore does not discolor White or other delicate colors. By their patent process all the fatty matter (which renders Paint non-drying and sticky) is removed making the Paint mixed with this Oil dry quickly with a perfectly hard and smooth surface, prevents blistering, and is therefore consequently much more durable. This Oil has been successfully in use for many years in China, Japan, the West Indies, the Straits Settlements, Burmah, &c. One trial will show the importance of this Oil in a climate like India, and will cause it to become in general demand through India. THOS. HUBBUCK & SON ship only GENUINE OILS and TURPENTINE, and therefore, trust their friends will see when ordering HUBBUCK & SONS' that they also get HUBBUCK'S GENUINE OILS and TURPENTINE. Good Paint is destroyed by using an inferior HO.

ADVERTISING AT RAILWAY STATIONS.

THE Proprietor of the "BOMBAY GAZETTE" Press, having leased from the

G. I. P. RAILWAY COMPANY,
The NIZAM STATE RAILWAY,
AND
The BHOWNAGAR-GONDAL RAILWAY COMPANY

The exclusive right of advertising at all the Railway Stations belonging to these Companies, is prepared to contract with parties desirous of posting Notices or Advertisement, on the lines.

The announcements may be in English or in any of the Native Languages.

The advantages which Railway Stations present as a means of bringing intimations of all kind before the public have been demonstrated in England by the extensive use which is made by Advertisers, of every station, great and small, along every one in the United Kingdom.

INSURANCE COMPANIES, SHIPPING COMPANIES, HOTEL-KEEPERS, MERCHANTS, TRADERS and others who wish to force their business on the notice of the public, all alike value the privilege of Railway Station Advertising.

And as nearly ALL TRAVELLERS ARRIVING IN INDIA NOW LAND AT BOMBAY and proceed by Rail, Placards exhibited at the different stations are every day becoming more and more valuable as a means of bringing the Advertisers' business to the notice of the public.

On the NIZAM STATE RAILWAY the Cantonment of Secunderabad, as is well known, contains the largest military garrison in India, a garrison comprising over 5,000 British and Native troops. Contiguous to it is the Cantonment of Bolaram garrisoned by two Regiments and one Battery of the Hyderabad Contingent, all officered by Europeans. South of Secunderabad, about four miles, are the suburbs of Hyderabad containing the Nizam's Regular Troops, about 5,000 in number, officered mostly by Europeans, besides a large civil population. It would manifestly be a source of profit to firms to advertise at these Stations, the most important of which are Secunderabad, Hyderabad, Gangawaram and Tandur.

Orders for exhibiting Advertisement Boards on the B. B. and C. I. Railway Stations will also be received at this Office.

RATES.

Boards not exceeding 2 feet long and 2 feet broad Re. 1 per month. For every additional square foot annas 2.

Thus a firm exhibiting a board, say 4 feet square, will have the advantage of having their Business Advertisement read by thousands of passengers on one station platform for the trifling monthly expenditure of Re. 1. Parties advertising on six stations or more will be allowed a discount of ten per cent.; on twelve stations or more twenty-five per cent.

Special arrangements for long periods.

The boards to be delivered at the "BOMBAY GAZETTE" OFFICE, whence they will be sent by the Lessee to the various stations selected by the Advertiser. In the event of the contract terminating, the boards will be brought back to Bombay at the expense and risk of the Advertiser.

Advertisers can select the stations, on the four lines at which they wish their Placards posted, and may advertise for any period that may be agreed on. The charges have been fixed on an extremely moderate scale to encourage Advertisers to make a liberal use of the new means now offered of making announcements known to the public.

Placards, according to the taste of Advertisers, may be printed at moderate charges in English of any of the Native languages at the "BOMBAY GAZETTE" Press. Estimates on application.

For further particulars apply to The MANAGER, "BOMBAY GAZETTE" OFFICE, Rampart Row, Fort.

A WRITER in the *Times* draws a picture of Heligoland idyllic in its picturesqueness. Here, he says, in effect, you have drink without drunkenness; familiarity without impropriety; noise *minus* vulgarity; and lastly, "staid men and women become children once more, and the wrinkles and appearance of old age seem to fade away." Had women of fashion known that in Heligoland we possessed an unrivalled anti-corrugator, we may readily surmise that its cession would never have taken place. The writer, however, approves of the surrender.

FLORILINE!—FOR THE TEETH AND BREATH.—A few drops of the liquid "Floriline" sprinkled on a wet tooth-brush produces a pleasant lather, which thoroughly cleanses the teeth from all parasites or impurities, hardens the gums, prevents tartar, stops decay, gives to the teeth a peculiar pearly whiteness, and a delightful fragrance to the breath. It removes all unpleasant odour arising from decayed teeth or tobacco smoke. The "Fragrant Floriline," being composed in part of honey and sweet herbs, is delicious to the taste, and the greatest toilet discovery of the age. Price 2s. 6d., of all Chemists and Perfumers throughout the world. Sold wholesale by the Anglo-American Drug Company, Limited, of Farringdon-road, London.

VESSEL ARRIVED.—The steamer Simla arrived from Bussorah.

VESSELS SAILED.—The following vessels sailed yesterday:—Nizam (s) for Calcutta, &c.; Lombardy (s), China, &c.; Sculptor (s), Jeddah, &c.; Canara (s), Calcutta, &c.; Arabia (s), Murmagoa, &c.

PRINCE'S DOCK.—The s. s. King Arthur and s. s. Sculptor left the dock yesterday.

VICTORIA DOCK.—The s. s. Patna and s. s. Lombardy left the dock yesterday.

ENTERTAINMENT.—For seamen, at the Seamen's Institute, opposite the main entrance to Prince's Dock, at 8-15, this (Saturday) evening. Admission, as usual, free.

THE SOROSIS.—The regular meeting of the Sorosis Club will be held to-day, at 4 p.m. There is business of importance to transact, and a full attendance is urged.

THE VOLUNTEER REGIMENTAL DINNER.—A regimental dinner of the Officers of the Bombay Volunteer Rifles will take place this evening, at the Esplanade Hotel, at 8 o'clock.

THEFT ON BOARDSHIP.—Hans Hanson, a quartermaster of the s. s. Clan Graham, lying in the Prince's Dock, reports the theft of a silver watch, valued at Rs. 20, from his cabin, on Thursday last.

POCKET-PICKING ON A FERRY STEAMER.—Gyadeon, a Purdasee, in the employ of Bomonjee Dubash, reports, that his pocket was picked of a purse, containing Rs. 62, in currency notes and cash, while on board a ferry steamer, which left for Panwell, on Thursday last.

SELLING PUTRID FISH.—At the Girgaum Police Court yesterday, Marootee Wittoo and seven other fishermowen were charged by Mr. Enoch Solomon, Market Inspector, before Mr. Richardson, with exposing putrid fish for sale at the Null Bazaar Fish Market, on Thursday last, the same being unfit for human food. The whole of the accused, on admitting the truth of the complaint, were convicted, and fined Rs. 2.

SELLING BEEF WITHOUT A LICENCE.—At the Girgaum Police Court yesterday, Mr. Enoch Solomon, Market Inspector, charged a butcher, named Shaik Ebrahim Dadoo, before Mr. Richardson, with bringing buffalo meat, which was unfit for human food, from Coorla to Byculla for sale. He had not the usual permit of the Municipal Commissioner, and it was therefore an offence in contravention of the Bombay Municipal Act. Shaik Ebrahim Dadoo, on pleading guilty to the charge, and also admitting two previous convictions for a similar offence, was convicted, and fined Rs. 50.

THEFT OF A CLOCK.—Inspector Holdway yesterday charged Gopal Dhondoo, before Mr. Richardson, at the Girgaum Police Court, with stealing a clock, valued at Rs. 4, the property of Balwantrao Khondajee, a clerk in the firm of Messrs. Ralli Brothers, from his residence, at Mazagon, on the forenoon of Thursday last. The accused, after stealing the clock, was endeavouring to dispose of the article in the native town, when he was arrested by a policeman on suspicion. Gopal Dhondoo, on pleading guilty to the charge, and also admitting one previous conviction, was sentenced to four months' rigorous imprisonment.

RIOT IN KALBADEVI.—A young Hindu, named Maggo, and six others were yesterday brought for trial before Mr. Showshunkar Govindram, the Acting Third Presidency Magistrate, with committing a riot the day before in Kalbadevie, Mr. Kapadia, who represented the 5th accused, observed that his client was the only one who could show marks of violence, and rightly speaking the police should have taken him as the complainant. The first four accused here took off their jackets and showed his Worship several wounds. The prisoners were remanded to admit of their bringing forward witnesses for the defence.

THE ESPLANADE BANDSTAND.—The Band of the G. I. P. Railway Volunteers will play the following programme, at the Esplanade Bandstand this evening, at 5-30 p.m.:—

March	Catalari — Arr. by P. Clyne.
Overture	Occasional — Handel.
Valse	Bei uns Z'haus — Joh. Strauss.
Fantasia	The Rose of Castille — Balfe.
Valse	Lactitia — Ph. Fahrbach.
Polka	See me dance — Ed. Solomon.

GOD SAVE THE QUEEN.

MUSIC AT THE UNIVERSITY GARDENS.—The Band of the Bombay Volunteer Rifles will perform the following programme this evening, opposite the Esplanade Hotel, at 8 o'clock:—

Overture	Preciosa — Weber.
Valse	Viennoise — Czibulka.
Grand Selection	Le Prophete — Meyerbeer.
Valse	Fond Hearts — Aigrete.
Priest's War March	From Athalie. — Mendelssohn.
Gavotte	Pizzicato — M. Watson.
Lancers	The Duke of Fife — J. Wood.

THEFT OF A PERAMBULATOR IN A PUBLIC GARDEN.—At the Girgaum Police Court yesterday, Inspector Saunderson charged a Mahomedan lad, aged 12 years, named Fazul Abdoola, before Mr. Richardson with stealing a child's perambulator, valued at Rs. 50, from the Victoria Gardens, on Thursday evening last. It appears an ayah took the child who was in charge of into the Albert Museum, at the Gardens, leaving the perambulator outside, and on her return in about half an hour the perambulator was gone. The matter was reported to the police, who found the perambulator concealed, in a cart shed, at Bapty Road, yesterday morning. The lad, on being arrested, admitted of having taken away the perambulator from the Victoria Gardens. On pleading guilty he was sentenced to receive twelve stripes with a light rattan.

THE STREET BEGGING NUISANCE.—Another batch of paupers, comprising three men and seven women, was yesterday afternoon placed before Mr. Showshunker Govindram, the Acting Third Presidency Magistrate, at the Esplanade Police Court, for annoying passers-by and inmates of houses in the Fort during the forenoon, by soliciting alms, and also obstructing traffic. The accused denied the charge, and said they were quietly partaking of their morning meal together, when the police marched them up to Court. His Worship observed that this nuisance must be stamped out. He had a great mind to commit them to jail, but would discharge first offenders with a warning. The two men and one woman, however, who had taken no heed at his last warning were sentenced to suffer one day's simple imprisonment.

WARNING TO LIQUOR VENDORS.—A Parsee, named Meerwan Ardasir, described as a vendor of European liquor in Secunderabad, was yesterday charged by Nagindas Manickdal, an Abkari Inspector, before Mr. Showshunker Govindram, the Acting Third Presidency Magistrate, at the Esplanade Police Courts, with having in his possession one quart and half a pint of country arrack. Accused explained that it was meant for his own consumption and produced a loaf of bread, which he intended to eat before he drank the liquor. He really was not aware he said that to possess more than one quart bottle of country liquor, and that with a drawn cork, was an act punishable under the Abkari law, as explained by the Inspector prosecuting. His Worship observed that as a licensed vendor of spirits, he certainly did not improve his case by pleading ignorance, and fined the accused Rs. 5.

THE FOURTH KAYASTH CONFERENCE.—We are requested to inform members of the Chitraguptavanzhi Kayasth community that the fourth Social Conference meets at Lahore next week on the 22nd and 23rd instant. Owing to some unavoidable difficulty the English translation of the Urdu circular has not been distributed among different members of the brotherhood, but any information relating to the Conference may be obtained from the recent issues of the *Kayasth Gazette* and the *Conference Gazette* or by communicating with any of the following gentlemen:—Messrs. Heralal Manekial Vakil, (Ajmere); Mansookial Hiralal Nazar, of the firm of Messrs. A. H. Nazar and Co.; Ruttilal Brijlal Majmudar, and Madonlal Lallubhoy Mansiff, Bombay, who have attended the previous sittings of the Conference. All possible convenience will be afforded the delegates and others on their giving intimation to the honorary secretary of the Reception Committee.

THE PROSECUTION OF A BOMBAY PAPER BY THE PORTUGUESE GOVERNMENT.—The *Anglo-Lusitano* says:—It is stated in the papers, and we believe the statement is true, so far as it goes, that the Governor-General of Goa intends to prosecute for defamation one newspaper and two of the speakers at the Bombay meeting of the 24th September. It is also stated that General Vasco Guedes has consulted Lord Lansdowne on the subject, probably under the impression that in British India justice is administered in much the same way as in Portuguese India. We suppose that the suits are to be filed in the Bombay Courts, and we suppose, too, that subsequently the case referred to is our own—at least that seems to be the general impression. No further particulars have yet transpired. Those who think that British rule is preferable to Portuguese will no doubt be glad to find that General Vasco Guedes is apparently of the same opinion, as he is trying to seek justice in British Courts against persons who are apparently his own subjects. The fact may also go to strengthen the British demand for the establishment of British Courts in Goa. If his Excellency persists in his intention, and the British Courts admit his suit, the Bombay public may look forward to a unique case, for they will no doubt be afforded an opportunity of seeing a Portuguese Governor-General, and perhaps other Portuguese functionaries, in the witness-box of a British Court. Some good may also result to the popular cause, as, if the case is to be wide enough, a British Court may be able to elicit the truth about the Salsette scandals. The supporters of the popular cause have asked for an enquiry; if, instead of a Portuguese enquiry, we are to have a British one, it is perhaps so much the better.

HOUSE-BREAKING AND THEFT.—A man named, Davichund, aged 25 years, was yesterday placed before Mr. Showshunker Govindram, the Acting Third Presidency Magistrate, at the Esplanade Police Court, charged with theft and house-breaking on two separate occasions. The first was breaking into the house of a peon in the service of the Bank of Bombay, on the 2nd instant, and stealing a brass tray and pot. Accused acknowledged his crime, and added that he sold the tray for 8 annas to a Marwaree, and the pot for 3 annas to a coppersmith, in Modi Bay. Inspector Maccabin here reminded his Worship of his having convicted the accused for a petty theft of Rs. 3 of an old woman, on the 8th instant, and sentenced him to one months' rigorous imprisonment, which he is undergoing. The second charge against the accused was that he broke into the house of Ramagunji, a lamp-lighter, in the service of the Bombay Gas Company, and stole 2 brass pots, 2 brass trays, and 7 cleographs of the value of Rs. 5 in all. On 9th September last, complainant explained that according to his want he had gone to work during the day and returning late at night found his door locks broken and loosely hanging in the bolts. His suspicions were aroused, and on searching his house, he missed the articles above detailed. He gave information to the police who produced the goods which he identified as his. Accused admitted the

LAWRENCE & MAYO,

(OPHTHALMIC OPTICIANS.)

SPECTACLES to benefit the sight must be exactly adapted for correcting the particular defect for which they are designed.

The first important step, therefore, is to get the refraction accurately defined, and all necessary measurements taken. Spectacles are then prepared specially, in accordance with the requirements of each case, and it is only when thus precisely adapted, that beneficial effects can be relied upon.

Astigmatism, a common enough complication, can only be corrected in this way. Ordinary spectacle vendors never attempt it, or at most can forward an oculist's formula to Europe. In our own Factory, any kind of lens can be cut, at a few days' notice, whether spherical, cylinder, both combined, or bifocal.

LAWRENCE & MAYO'S VIOLET NEUTRAL TINTED GLARE-GLASSES.

Are the best protection for the eyes from sun and dust. They can also be supplied with any power needed to correct the refraction.

COMMERCIAL INTELLIGENCE

BOMBAY MARKET REPORT.

FRIDAY EVENING, Oct. 17.

FOLLOWING the downward course of Exchange more movement has taken place in our markets generally, and the volume of business passing since the date of our last report has been greater than of late. The new Cotton crop has attracted more attention from European operators, and contracts have been made in the growth which is the first to come to market, and of which supplies are beginning to arrive at the district marts; purchases of old stuff by local spinners have continued on a moderate scale. Considerable transactions in Wheat have taken place on some days, and prices have advanced with the improved demand. Seeds have been steady, but with not much doing. Exchange has varied in tone and fluctuated in rates to some extent; but, recovering from the lowest point touched quotations close this evening the same as they were a week ago for demand Bank Bills, but 1-16d higher for Credits. Government Paper is virtually unchanged. Freights have been steady, but with not much doing. There has again been more business passing in Imports, and prices of some staple goods show further improvement.

MONEY.—A large accession to Private Deposits during the week covered by the Presidency Bank's Statement of Affairs, issued on Monday afternoon, was the principal change, which had taken place since the publication of the previous Return; and though there had been an increase of some 2½ lakhs in Bills Discounted, pointing to a little more demand for accommodation in one direction, the net falling off in trade requirements generally was represented by 30½ lakhs. There had, however, been considerable Government withdrawals, so that the actual increase in the bank's Cash Balance was only 12½ lakhs. Money continues plentiful in the bazar; and the minimum rate of the Bank of Bombay remains at 5 per cent. per annum.

EXCHANGE opened firm on last mail day at Friday's closing rates, but Merchants' Bills coming out freely, the rate for three months' sight Credits, more especially for future delivery, advanced rapidly, until that paper, for early November, was placed at 1s. 7 3-16d., and for December at 1s. 7d. Scarcely anything was done for remittance. On Monday the feeling was steady at the advance established on Saturday, with remittance rather more favourable. Ready Telegraphic was available at 1s. 6 11-16d., and a slightly better rate than the current one of 1s. 6 25-32d. might possibly have been obtained had it been required. There was a falling off in the supply of Merchants' Bills; but there were few buyers forward for other Private or Bank Paper. The market opened on Tuesday 1-16d. under the previous evening's quotations, and became again quieter on the receipt of weaker advices from Calcutta. Transactions in demand paper between Banks, were rep ortedat 1s.6¼d., and in three months' sight at 1s. 7d. There was a good demand for remittance, but Mercantile Paper was still scarce. Owing to lower quotations for Silver from London and New York, the market was weak and declining on Wednesday, but with little business passing, few Private Bills having come out at the decline. Telegraphic, for January transfer, was quoted at 1s. 6¾d.; but forward rates were unsettled, and Banks were still reluctant buyers. Yesterday the market opened unchanged for remittance, but at 1-16d. below Wednesday evening's rates for ready credits, becoming firmer during the day, Merchants' Bills came out to a fair amount at 1s. 6¾d., and later at 1s. 6 15-16d., for November delivery, and at 1s. 7 1-16d. and 1s. 7¼d. for December, for three months' sight Credits. Forward rates closed firm at 1s. 7 5-16d. for Credits for January; and Telegraphic 1s. 6¾d. A fair amount of Mercantile Paper having come out, the market has again been firm and advancing, forward rates especially having been higher. For November delivery, three months' sight Credits are 1s. 7 ¼d., and Bank Demand 1s. 6¾d.; Credits for December 1s. 7 7-16d, and Demand 1s. 6¾d. Telegraphic, for January-February transfer, are 1s. 7 1-16d., and for March-April, 1s. 7d. We quote closing rates for ready business as follows:—

Bank Bills on Demand	.....	1s. 6¾d.
Do. Telegraphic	.....	1s. 6 17-32d.
Do. 3 months' sight	.....	1s. 6 23-32d.
Do. 4 months' sight	.....	1s. 6 27-32d.
Do. 6 months' sight	.....	1s. 6 31-32d.
Credits 3 months' sight	.....	1s. 7d.
Do. 6 months' sight	.....	1s. 7 3-16d.
Documents, 3 months' sight	.....	1s. 7 1-32d.
Do. 6 months' sight	.....	1s. 7 7-32d.
Francs 3 months' sight	.....	200¼d.
Do. 6 months' sight	.....	201¼d.

GOVERNMENT PAPER was quiet but steady when last mail left, and closed for the week at 103½ for Four per cents, with buyers at the rate, the quotation for this month's settlement having been 103 1-16, and for the November account 102 13-16. There was a stronger feeling in the market on reopening on Monday, leading to an advance of ¼ per cent. for Money and 1-16 for Account in Fours on Saturday's closing rates. The cash price stood all day at 103 3-8, with buyers at the rate in the evening, while for the two next accounts, 103¼ and 102, were quoted. On Tuesday the market was firm at Monday's rate of 103 3-8 for Fours for Money, at which the market closed; but for Account there was a further advance of 1-16 per cent., the rate for the next settlement having become 103-3-16, and for the end of November 102 15-16 with strong buyers in all positions. The feeling was weak on Wednesday, under the influence of much lower quotations from the other side, and rates gave way a little, say to the extent of 1-16 per cent. for Money, and 1-8 per cent. for account, quotations receding to 103 5-16 for Fours for cash; 103 1-16 for the next settlement; and 102 13-16 for the end of next month. Rates gave way further yesterday in a weak market, a decline of ⅛ per cent. having taken place in the cash price of Fours at 103 3-16, while for the two next accounts, 1-16 per cent. lower was quoted, at 103 for the end of this month, and 102½ for November. The market has been quiet to-day, and with little change in quotations, the cash price of Fours closing at 103 3-16, and the next settlement at 103, the price for the November account being 1-16 per cent. lower, at 102 11-16. For 4½ per cents 106 has been the nominal price during the greater part of the week, but 106¼ is now quoted.

Municipal Five per cent. Loan is ¼ per cent. higher, at 104¾. Port Trust Bonds are ¼ per cent. higher, at 99¼.

SHARES have been a quiet market throughout the week, but the feeling with regard to Cotton Mills Scrip has varied, our quotations this evening showing a fall in as many cases as a rise compared with the rates ruling a week ago. We have to report an advance of Rs.40 in Ripon Cotton Mill shares; of Rs 30 in Jubilee; of Rs. 25 in Sunderdas; of Rs. 22½ in Soonderdas; of Rs. 10 in City of Bombay and People of India; of Rs. 5 in David, Hindustan, and Hyderabad Deccan; of Rs. 2½ in Coorla and Jamshed; and of Rs. 2 in Anglo-Indian. On the other hand, there has been a decline of Rs. 15 in Empress; of Rs. 10. each in Kandeish, Khatao Mucconji, and Victoria; and of Rs. 5 each in Alliance, Gordon, Howard and Bullough, Imperial, Presidency, and Queen. In Press shares, Port and Khangaum are Rs. 10 down; French are Rs. 75 higher; Harvey and Sabapathy have advanced Rs. 10; New Berar are Rs. 2½ higher; New Indian are Rs. 1¼ up. Bank of Bombay shares are Rs. 7½ higher; Bank of Madras have declined Rs. 20; National have advanced Rs. 5. Treacher and Co. are Rs. 5 higher.

IMPORTS.

PIECE-GOODS.—The fall in Exchange has brought more buyers of staple *Grey Goods* into the Bazaar, and rates are about one to ten annas per piece higher in some cases. Dealers are willing sellers at what they consider proper quotations, at taking into consideration the Exchange of the day. Stocks are sufficient if not large. Rules are tending in seller's favour. A moderate business has been done during the week in *Bleached, Dyed, Turkey Red*, and *Printed Goods* at slightly enhanced prices. In *Local Goods* only a small business has been passing at last week rates. The offtake of *Imported Goods* since last Friday is put down at some 3,500 packages; that of Local Goods of about 1,500 bales.

Yarns.—Only a small business in *Imported Twist* has transpired during the past week, and the tone of the market has been quiet; but prices have not changed. Sales of *Local Spinnings* at Hongkong during the past fortnight are reported at 4,400 bales, and those at 5 ports at 6,500 bales, Exchange still keeping at Rs. 221. With a weaker market and lower rates at Hongkong, spinners of low and average qualities here have been obliged to make a small reduction, say of 1-16 anna as an inducement to China buyers to operate. Spinners of fine qualities are firm, and No. 16s, fine, are higher by 1-32 to 1-16 anna per lb. The week's sales are put down at 4,000 bales. The market closes dull at the following official quotations:—

Twist...	...No. 6s Mule.	As.	4½ to 5	Per lb.
"	" 8s "	"	5 to 5 1-16	"
"	" 10s "	"	4 11-16 to 5 3-16	"
"	" 12s "	"	5 to 5⅛	"
"	" 16s "	"	5 11-16 to 6¼	"
"	" 20s "	"	5¾ to 6⅞	"
"	" 24s "	"	6¾ to 6 7-16	"
"	" 30s "	"	7¼	"

METALS.—A moderate business is reported in *Copper*, and the price of *Braziers* has advanced 4 annas per cwt., other descriptions being unaltered in value, and the market steady in tone. *Yellow Metal* has also been taken to a moderate extent, but has remained unchanged in value in a quiet market. *Iron* also has been quiet, with only a small business passing on the bases of previous rates.

COALS.—Sales of Davison's West Hartley for November-December shipment have been made at Rs. 17-8 per ton, and for October shipment, at Rs. 18¾. Powell's Duffryn, ready, has been sold at Rs. 18; and forward, at Rs. 18¼ per ton.

EXPORTS.

COTTON last week closed with a steady feeling in this market with only a moderate business passing; but the new crop attracted more attention, and several lines were booked in Bengals for future delivery on about the basis of previous rates. The tone continued steady on reopening on Monday, and a better demand having been experienced both from local spinners for old stuff, and from European operators for contracts in the new crop, a considerable business was done, the price of old Dharwar advancing Re. 1 to Rs. 3 per candy, but arrival prices showing little or no change. Thereafter, however, the market became quiet with a small, or at most only a moderate business passing, but without any important changes in rates. The principal lots of old Cotton taken during the week have been Dharwar, at Rs. 180; Compta, at Rs. 156-8, and Ginned, at Rs. 193-1; Dhulia, at Rs. 140-4; Nugger, at Rs. 153-73; Akola, at Rs. 167-79; Khangaum, at Rs. 184; Sheagaum, at Rs. 178-9; Bhownuggur, at Rs. 186; Wudwan, at Rs. 181; Bengals, at Rs. 148-58; and Westerns, at Rs. 165. Contracts in Bengal of the new crop have been made for "Good" at Rs. 166-7 for January delivery, "Fully Good" at Rs. 166½ for November, and Rs. 162½-4¼ for January, and "Fine" for January, at Rs. 175 per candy. The market closed steady this evening with prices on the same level, both for old Cotton and contracts for new, as they were a week ago.

An inch and-a-half of rain was registered at Hubli, in the Dharwar circle, during the latter half of last week, bringing the total fall there this season to nearly the average to the end of the month; and crop prospects were generally good. With this exception, and half an inch at Barsee, and a quarter at Sholapore, the Cotton area had been without further rain; and picking was going on in favourable weather in some districts of the Bengal and Oomrawattee circles, while in others the bolls were rapidly ripening. At Broach, the weather continued seasonable, and the Cotton plants were flourishing and in flower, as they also were throughout the Dholleera circle, the flowering being advanced at Wudwan and Bhownugger; but more rain was needed in some parts of the Dholera district proper, where the fall had been some 10 inches below the average. The telegraphic advices regarding the Cotton crop to hand yesterday showed no change in the generally favourable tenor of late reports to have taken place since the beginning of the week. There had been an inch and a half more rain at Bellary, and three-quarters of an inch at Hubli, and in the last named district of the Dharwar circle the Cotton plants looked healthy, in other circles the crop was maturing fast in seasonable weather; and at Agra, in the Bengal circle, Cotton was already arriving in small quantities.

The following are to-day's quotations for full-pressed cotton with the equivalents in Sterling, Cost, and Freight to Liverpool, via Canal without commission, *viz*:—

WHEAT.—A moderate business continued to be done in this market to the close of last week with a firm feeling prevailing; and an advance of ½ an anna per cwt. in *Pessy* of both qualities was established. The first day of this week was a holiday, and next day though the market was firm not much business was done, and prices were unaltered. On Wednesday, however, a pretty active demand sprang up from exporters and an advance of ½ to 1 anna per cwt. in prices took place, a considerable business continuing to be done on the following day, at a further rise of one anna per cwt. in the price of *Pessy*; but other descriptions were unaltered.

SEEDS have been steady with a moderate business passing throughout the week, and yesterday an advance of ½ anna was established in the price of *Linseed*, at Rs. 6-6-0 to 1s. 6-8-0 per cwt., which is our quotations this evening; other kinds showing no change.

THE VOLUNTEER RIFLE MEETING.

(FROM OUR OWN CORRESPONDENT.)

POONA, Oct. 17.

Matches V. and VI. were competed for to-day on the Wanowrie and Kirkee Ranges. Match V. is open only to cadets; while Match VI. is open to recruits. Conditions in both the matches were the same, namely, five shots at 150 yards, five shots at 250 yards, and ten shots at 300 yards. Three kneeling and two standing at each of the shorter ranges, and five sitting and five kneeling at 300 yards. Points will also be added to the score for attendance at each parade. Several recruits competed and showed great interest in the competitions; and some of the scores made would have done credit to the old Volunteers. Two competitors made 16 each at the first range out of a possible of 20; one made 15, one 14, and one 13. The highest score made at the second range was 15. There were two who made 14 each. 24 was the best score at the longest range. Cadet R. Cody stands at the head of the list to-day with 47 out of 80. H. Collins made 47, A. Cody 42, and Easton, and Norman 40 each. Among the cadets who competed were two Parsee lads, whose aggregate scores were 36 and 19 respectively.

In Match VI. the highest score made was 57 by Volunteer Baruchа, a Parsee. All the other Parsees who competed also made very fair scores. These two matches will be continued and closed to-day.

THE INSANITARY STATE OF MADRAS.

(FROM OUR OWN CORRESPONDENT.)

MADRAS, Oct. 17.

This evening a majority of the committee appointed by the recent public meeting presented a memorial to H. E. the Governor, who was accompanied by the members of the Executive Council. The Hon'ble Mr. Boyson, in presenting the memorial, appealed for special consideration and assistance on the ground that Madras being the capital with a certain floating population and also a port of call the sanitary condition of which is an important matter for ships calling here, he asked the Government for a gift rather than a loan. Madras was in a bad condition when it was handed over to the Municipality; and it was not a case of the Municipal Executives neglecting their work. H. E. the Governor read a reply, prepared after a consultation with the members of Government. It stated that the question was by no means a new one; and had been under consideration of the Government for years, and when the death-rate increased so much the Government was not surprised that a public meeting was held. Many months ago he had ordered that a scheme be prepared for the conservancy of the river Coovum, and subsequently appointed a committee which had made such a considerable progress; that any addition to it from the Memorialists Committee would retard rather than assist. He reminded them that the Municipality was a legally constituted representative authority and the only one that could be recognised by the Government. The Government could interfere under certain sections of the Act, but, he understood, that the memorialists did not ask for that. He did not think it advisable to give the present Committee a higher position than is claimed by the Municipality, but if the memorialists could by separate action bring a new light to the official committee, it was perfectly open to them to do so. It had been stated that the accumulated balances of sixty lakhs should all be spent upon the Madras Municipality, such a request no Government would be justified in acceding to. It would be violation of duty if the Government were to allot such an excessive amount to one Municipality. The Government would do all it could, but the inhabitants must do more. The official committee's report would shortly be ready, and he hoped by continuous efforts on the part of the Municipality and Government engineering and financial difficulties would eventually be overcome. Mr. Boyson, while thanking the Governor for the reply, remarked he was sorry that Government could not offer more assistance.

TELEGRAPHIC WEATHER REPORT.

SIMLA, Oct. 17.—The barometer has continued to rise except at Sibsagar, Tounghoo, and Tavoy, but the rise is slight in the west and south of the Peninsula, and low pressure area exists off the Bombay Coasts. Winds are unchanged and feeble; cyclonic circulation is shown around the Bay; calms over the Gangetic Plain, and variable breezes in the Central Stations and the West Coast. The force is normal on the West Coast. The mean temperature is low for the season in Northern India, and about the normal elsewhere. Rain has continued to fall in Bengal, Burma, and a few showers are reported from the Peninsula, and North-West Provinces. The heaviest amount is one and half inch at Darjeeling. Weather over the Bay and off the West Coast is unchanged still and slightly suspicious.

YESTERDAY, Dr da Gama received a telegram from the Minister of Marine at Lisbon:—

Yesterday I ordered the suspension of the election. Proclaim order to respect law.

MARY SHELLEY'S tales have just been collected and will be published shortly, the *Athenæum* says, as the first volume of a series. Dr. Richard Garnett has written a preface to them.

THE *Sydney Herald* of the 22nd September last says:—The R. M. S. Victoria, from London, is to arrive here this forenoon, and will land the passengers by steam tender from moorings in Neutral Bay. Captain A. Barrett, formerly in R. M. S. Rome, is in command, Captain Cates having been granted a holiday. Very bad weather was encountered off the coast of Western Australia. The storm described as the worst which has prevailed at A bany for twenty years. The engines of the Victoria were slowed down during the height of the gale, but gigantic seas broke high over the ship and damaged one or two of the boats. Great stress is laid by the passengers on the splendid seamanship displayed by the commander and the crew of the Victoria during the storm, which lasted for three days.

VANITY FAIR.

(FROM OUR LADY CORRESPONDENT.)

LONDON, SEPT. 25.

To read what women are doing is generally very instructive, often rather surprising, and sometimes, perhaps, to those who are heart and soul bound up in the advance of women and pin their faith on women's high moral and intellectual capacity, a wee bit depressing. One does not know exactly whether to laugh or to cry over the Brooklyn lady's message to the husband whom she was about to desert "Adieu, Adieu, Adieu,—don't forget to powder the baby with starch powder." And there is also something pathetically absurd in the fact of the authoress of "What to do with our Girls," knowing so little what to do with herself as to be discovered taking something more than the constitutional "forty winks" on the London pavement. But such are the ups and downs of life—the great see saw of successes and failures. On one side we have Miss Gladys Knowles sighing over the reduction of her ten thousand pound's worth of damages to the sixty pounds proceeds of the sale of Mr. Duncan's battered watering pots and toothless garden rakes, on the other is Lady Brassey, the second, counting up her wealth of wedding presents.

***

There was great excitement at St. Paul's, Knightsbridge, over the Brassey Wedding. Uninvited guests came early determined to be in time, but a *hiatus* had gone forth that no stranger should look on, so at the appointed time the parochial clergy had to clear the church of everyone who was not provided with a ticket. This was not very gratifying to any of the parties concerned—but what would you have? at a wedding there must at least be space for the bride and bridegroom, a fact seldom realized by the spectators. It is a pity that for functions of the kind the "queue" system as practised outside Parisian theatres is not employed. It would save overcrowding, because the church need not be opened till the hour of the performance arrived, and the door might be closed as soon as the last seat was filled, the bride and groom of course entering with their suite by a side-door.

***

Sybil Lady Brassey made a very dignified, elegant bride in her simply made ivory white dress. She wore no ornaments, but natural orange blossoms in her hair and a high collar finished with seed-pearl embroidery. Among the guests was her grandfather the Earl of Essex, accompanied by his third wife, a very young woman, whose attention to her old husband was considered very touching. The bride's mother Viscountess Malden is a very distinguished looking woman, with a commanding figure and exquisite white hair, and like her daughter scarcely looks her age. The officers and men of the Sunbeam were present in their yachting dress. It is said that Lady Brassey the second, does not like the sea, but her predecessor had the same objection which in time she completely conquered. Lord Brassey looked fresh and happy and in the prime of life. He is just fifty-four and his bride is thirty-two.

The *trouss eau* of the Empress Frederick's daughter Victoria will be confided altogether to German artists—not perhaps by her choice, but of necessity, for the Germans are very jealous of outside competition. When her Imperial Majesty ordered some things to be sent to her from London there was great outcry in Berlin at what was accounted an exhibition of Anti-German prejudice. The articles which included some art furniture were delivered in due course—and thereby hangs a tale—without exception they were all of German manufacture.

Apropos of things German, it is said that Prince Bismarck has a strong superstition concerning the number 3. The arms of his family bear over the motto "In trinitate robur," three trefoil leaves and three oak leaves. He has three children, Herbert, Wilhelm, and Marie; he has three estates, Fredrichsruhe, Varzin, and Schonhausen; he has fought in three wars, and signed three treaties of peace. Unlike the Earl of Essex, he has not, alas! had three wives.

***

In a roundabout way Bismarck's superstitions lead one's thoughts, *via* Bernhardt and Ellen Terry's terror of peacock's feathers to the death of Jeanne Samary, the brilliant little actress of the Comedie Francaise. "Spectator" writes:—Jeanne Samary's premature death—she had only just turned thirty—will affect half the play-goers in Europe with a sense of almost personal loss. Fifteen years ago, he says, she was the spoiled darling of the theatre Francais. And no wonder for she came of the famous theatrical stock of the Brohans, and had already shown herself at the Conservatoire (where she was taught by Bressant and her aunt Augustine) a chip of the old block. Assured from the first, success was not long in coming. A little round plump partridge of a woman, with tip-tilted nose, the prominent eyes of the near-sighted, and a wide mouth for ever opening to display a row of pearly teeth, she had the face, the figure, the voice, the aplomb, the ringing laugh, in a word the ideal personality for the cheeky little soubrette of Moliere, and she rapidly ran through the whole gaunt of them—Dorine, Toinette, Madelon, Nerine, Lizette, and the rest. She became a societaire of the Comedie in 1879; and then by a supreme stroke of luck, just as she was beginning to tire of the Molieresque repertory, a new author was found with the knack of fitting her talent like a glove. This was Pailleron of whom it is doubtful (death has now stepped in to solve the doubt) whether he made Samary's vogue or Samary, his. Be that as it may, her Joinon in "L. Etincelle," her Suzanne in "Le Monde ou l'on s'ennuie," a cherubino in petticoats, beyond a doubt the finest thing she ever did, and her Pulcherie in "Petite Pluie," all three parts written for her by Pailleron, were among the most delightful creations of the modern stage. Jeanne Samary, in private life, was a modest home-keeping little French bourgeoise, a devoted wife to M. Paul Lagarde, a well-known Parisian financier, whom she married in 1879, and the best of mothers. The circumstances of her death will probably have the effect of making Paris a more sanitary city. Sydney Smith said railway companies would never stop having accidents until they had killed a bishop. Now that Seine water has killed one of the celebrities of the French stage we shall possibly hear of some improvement in the Paris water-supply—the pity is that it should cost so dear.

To Bombay, not Lahore, is due the reflected glory of having been, twenty-four years since, the cradle of Rudyard Kipling, the author of "Plain Tales from the Hills," and that remarkably-named poem the "Fuzzy Wuzzies" of the Soudan. His father Mr. Lockwood Kipling went out to the Sir Jamsetji School of Art in Bombay, and for many years was principal of the Sculpture Department there. It is said that his clear delineations of the craftsmen and indigenous arts of India caused him to be chosen by the Government of India as organizer of the Mayo School of Art and Museum at Lahore. When sixteen years of age Rudyard Kipling returned to India from England, where he had been for his education, and undertook the post of sub-editor to the *Civil and Military Gazette*. To this paper and to the *Pioneer* he contributed lively articles and tales of Military life. He has been for the past six months in London, and in consequence, or in spite of, the eccentricities of his style, his stories have been lately very much talked of and appreciated.

A native American Indian novelist is attracting much attention in some of the Central States. His name "Peak of Thunder" has a romantic twang about it, and despite his literary acquirements and prospects, he prefers to live his semi-wild life at his home in Indian Territory. His book is spoken of as a very well-written romance of life and love in his own country.

It is pleasant to hear of the aborigines taking up English literature as to judge by specimens of our native English writing, the pure language is likely to die out, if it depends on cockneydom for support. Here is a story to the point: A London lady, in whose pronunciation of English the letter "H" is a rather uncertain quantity, went to a stationer and ordered a number of invitation cards that she proposed to issue for an evening party. She particularly instructed the stationer to print "igh tea" in the left-hand corner. When the cards came home, they all bore the letters of "I. T." in that corner. The printer had concluded that his customer had in inventing some new contraction after the manner of "R. S. V. P."

Another new periodical devoted to the interests of workers will be produced on October 8. It is to be an organ of womenservants and their mistresses, and will be edited by Mr. David Anderson, the founder of the school for journalists and for many years on the editorial staff of the *Daily Telegraph*. The paper will be called *Mistress and Maid* and its object will be to find good servants for employers and good places for servants. During the silly season many papers devoted themselves for the time to airing the public view about servants and their particular grievances, which there is not the smallest doubt are very grievous indeed in many cases. But it is one thing to air a grievance and another to remedy it. It sometimes seems as if talking about such things made them more difficult to cope with. The mistress and maid grievance is really more serious than it seems to be. Both parties have changed since the good old times when service in a family was hereditary, and to reproduce such conditions we should be born over again or something very like it. If Mr. David Anderson could resuscitate the easy going pleasant times when there was no fuss and hurry and worry of trains, trams and busses with their accompanying annoyances of noise, din, glare, and smut, he would need no newspaper to solve the difficulty of pleasing both mistress and maid.

A NEW INDUSTRY IN BOMBAY.

THE manufacture of woollen goods is one of the most recent additions to local industry. Only a little more than a year ago a company calling themselves the Bombay Woollen Manufacturing Company was established for opening a wool mill in Bombay. In the month of June last, their mill near Dadur, the first wool mill in the Presidency of Bombay, was opened for work. Three experts were brought out from England to superintend the different departments, one for the dyeing and finishing, another for the spinning, and the third for the weaving. In the month of August work was begun in earnest.

But before proceeding to explain the difficulties which had to be contended against, and which have in a great measure been overcome, a description of the new mill, and the process of manufacture may prove interesting. The mill which has the advantage of having Messrs. Ewart Latham and Co. for its agents, stands on a clearing in the midst of a grove of cocoanut palms, about ten minutes drive from Dadar station; and the first objects to attract the attention on entering the compound are piles of gunny-bags. These contain the raw wool as it has been brought from Busreh, Karachi, Madras, the Punjab, and indeed all parts of India. Amongst the bags a gang of boys are busy tearing out the wool, and teasing it preparatory to its being conveyed to the washing machine. It is curious to note the different kinds of wool that come from the different parts of the country. The wool from Karachi, for instance, is all tied up in knots, or twisted into ropes, while the soft black wool from Busreh, which makes splendid blankets, is on the other hand short and merely pressed into bundles, so that the separating process is a simple one. But the wool which is shipped from Karachi, wherever its origin may have been, is very troublesome. Much of it in the packing is filled with all kinds of dirt and coarse hair, to make it weigh heavily, and this not only creates a deal of labour, but is useless, for if the smallest portion even of the hair were left in it, it would spoil the fabric. It would appear that it is useless to ask the traders from whom the wool is purchased to stop this annoying and profitless practice. It is one of the tricks of their trade that they will no give up. But it is a profitless trick in this way. The dealers have got accustomed to the sellers' little ways of doing business. They know exactly in which places the most adulteration is practised, and in bargaining for the wool make allowances for the amount of dirt, hair, &c., they may expect to find. The wool that comes from the various places is of various degrees of fineness and length, and of different colours, white and black, and various shades of brown and gray. The wool, having been unpacked, untwisted, and teased out, is taken to the washing machines, where it gets its first of many cleanings, and then having been thoroughly dried by means of hot-water rollers, it comes to the laying process. It is only, however, for the manufacture of particular kinds of gray blankets and cloths that this laying out is necessary; black and white wool being teased out and mixed together before being subjected to the winnowing machine. This latter is a process through which the wool has to pass to be cleaned, or rather partially cleaned. After that, oil is poured on the wool to soften it, and it is then transferred to a machine called the Devil, which teases it out finer, removes some more of the dust, and mixes the oil with it. Very often, however, the wool is found filled with burrs, which get into it by the sheep scrambling through bushes; and it is necessary to have those removed. The wool, after the Devil is done with it, is put into a machine something like that which is used for taking the seeds out of cotton. That done, it is ready for carding. There are two carding machines, called the Scribbler and Condenser, and very wonderful inventions they are. They are simply a lot of rollers, about sixty in number, the surfaces of which are covered with very fine needles. They all move in different directions, and at different rates of speed; and the wool passing between them is combed out very finely, and ultimately passes out in the form of threads rolled on large bobbins. But those threads being very loose and easily severed, the bobbins are taken upstairs to what is called the Mule, which is a spinning machine, and which twists it into a finer and stronger thread, winding it at the same time on to smaller bobbins. It is most interesting to watch the men at work here, and one cannot help admiring the smartness with which they join any threads which happen to break. Having undergone this process, the bobbins are taken downstairs again to the warping machine to be finally prepared for the loom. The yarn is after that sized in a machine for the purpose, which adds strength to the thread, and passed between hollow rollers filled with steam, which dry it, and then it is ready to be woven into blankets, serges, woollen cloths of various kinds, horse clothing, all of which are manufactured at the Bombay Woollen Manufacturing Company's Mill.

In coming to the looms we will first of all suppose we are having blankets manufactured. After being woven the fabric appears very coarse and open; but it must not be supposed that after leaving the weaver it is finished. Much has yet to be done ere the blanket is complete. Long taken from the loom, the cloth is removed downstairs to be measured and weighed. A milling machine next shrinks the cloth to the size wanted, and all the twists in the yarn bursting, it comes out with a nice soft feel. After that, it is washed to remove the grease and dirt with which it is impregnated, and being washed is ready for the dyer, if it is to be dyed. Then, it must be dried. But that is not effected by hanging it out in the ordinary way. It is dried by machinery, and is put into a large curious-looking apparatus which might be termed a steel tub, called a hydro-extractor, which spins round at the terrific rate of twelve hundred revolutions per minute. But the cloth is still very uneven in width, and to bring it to an equal breadth, it is, after being dried, subjected to the tentering process. It is rather difficult to describe this, and would much better be seen to be thoroughly understood. The cloth is fixed on rollers, over which it is passed, and pulled very tightly between twelve rows of hot-water pipes heated to about 150 degrees —steel pins set closely together, to which the edges of the cloth are fixed, regulating the width. Now a fine pile is wanted on the blanket, and it is put upon a machine for that purpose. On a round cylinder are fixed teasels, curious-looking little things which grow in Yorkshire, and the surfaces of which are covered with sharp prickles or thorns. These teasels, it would seem, are used, as no manufactured article could do the work so satisfactorily, the prickles yielding just sufficiently as the cloth passes over it, and scratching up the pile. The brushing is the finishing process, and by that means all loose hairs are removed. Woollen cloths and serges go through the same processes till they are taken from the scouring machine, but as they do not want a pile on them they are, after the tentering, put through the knifing machine, which removes all long hairs. Then it passes through the hot press, and put up in pieces ready for the market.

And now, in conclusion, to refer briefly to the difficulties which had to be contended with in getting the trade recognised in local markets. The native dealer having been in the habit of importing all his woollen goods from England, was slow, if not unwilling, to recognise the merit of the Indian-made goods, even although they were quite as cheap, and though coarser, from the nature of the Indian wool, still better than the English, from the fact that they were pure wool, and unadulterated by cotton and other materials like many of the English fabrics. The Bombay Woollen Manufacturing Company had accordingly to open a shop in the bazaar themselves and put a native manager in it. Business was very slack at first, but it suddenly took a turn for the better. On the reason being inquired into, it was found the tradesman had been selling the goods as of real English manufacture, and their merit being recognised the new company carried on a brisk trade in blankets. The trade is now increasing, the venture is a success, and the mill is kept busy manufacturing woollen cloths of all kinds for firms all over India. All that is now wanted is that Government, who promised many years ago to encourage local industries, should assist by sending orders for supplies of goods for the Commissariat to Indian mills, and then the manufacturers will be prepared to import finer wools than can be obtained in India, from Australia, which could be done and manufactured as cheaply as the goods Government at present bring from England.

It is not unlikely that this new industry in Bombay will ere long offer strong competition to the English mills. The Bombay Woollen Manufacturing Company had only begun to erect their mill at Dadur when another company following in their footsteps put up a building on a piece of ground adjoining, and under the name of the Sorab Mill is now also in full swing.

THE depopulation of France, writes our Paris correspondent, was the subject of the latest debate in the Academy of Medicine. Dr. Javal read a paper, in which he sought to show that the causes of the evil were to be found in the unjust distribution of taxation and in the military system, which protected early marriages. The remedies he proposed were the removal of duties on necessaries of life and a reduction of the army in time of peace. Dr. L'Agneau replied that the birth-rate was not too low, but that the infant death-rate was too high, and he showed that the increase of population among French Jews was due to the care they took of their children.

IN Hungary, a Vienna correspondent says, some Franciscan monks recently obtained permission of the Pope to re-establish the old rules of the order as they were prescribed by St. Francis of Assisi when he founded it 700 years ago. A monastery was given up to those who chose to submit to these rules, which are exceedingly strict, demanding that each monk should spend his days locked up in his cell, and renounce every enjoyment of life; and though a minority of the monks only accepted, they obtained permission to educate the novices according to their new rules. The result is that eighteen have run away and taken refuge in a Franciscan convent in Pressburg, where they will wait until the clerical authorities have decided whether they must submit to the rules, in which case they would give up the clerical calling altogether.

THE VOLUNTEER DRILL SEASON.

Now that the monsoon is over the commencement of which marked the close of the Volunteer season of 1889-90, it is to be hoped that the Route March which takes place this evening will inaugurate a successful and satisfactory drill season of the Bombay Volunteer Rifle Corps for 1890-91. According to orders the regiment will parade at the Cruickshank Road and the General Parade-Ground, and it will no doubt afford pleasure and satisfaction to Lieut.-Colonel the Hon. L. H. Bayley, the popular Commandant of the Corps. It should be no excuse to members, if their absence as to ignorance of the event, for a glance at the daily newspapers in the column under Regimental Orders, &c., would unmistakably remind them of the occurrence, since the notification appeared a week prior to the event. Be sides this, circulars have in several instances been sent round to members of companies by their captains to call their at ention to the fact. Another excuse which is invariably offered is distance. Here again the Corps comes forward in sanguine hopes of securing a good turn-out, and offers to refund all fares occasioned either by tramcar or train on the application of members to the instructors after they have been dismissed.

At the march-out last year 357 of all ranks were present at the parade and the men were complimented for their excellent turnout by their Commanding Officer. The Annual Church Parade which took place on the 2nd of February this year was considered to have been the largest muster since the regiment has been raised, a total number of 405 Volunteers having assembled. In the company drills last season it was regretted that they had been so badly attended since this was a very good opportunity for the improvement of recruits. The total strength of the corps for 1888-89 was 789, while 720 figured in the same column for 1889-90, thus giving a decrease of 69 for the season just closed. The actual strength at the commencement of the past drill season was 485, while that of 1888-89 was credited with a total of 454 exhibiting an increase of 31. But additional recruits and the joining of new members made a wide change in the diference of the totals in the past and the previous seasons. The total number of recruits and additional members for 1889-90 was 235, while that of the previous year showed an enrolment of 335, which gave a decrease of precisely 100 men during the past season. This would naturally appear as if the members were falling off. But this inequality is easily explained when we notice that a marked increase extended the rolls of 1888-89 by the addition to the Corps of a new Company of cadets from the St. Mary's College, which swelled the ranks with over seventy recruits. The total of efficients in the corps for 1889-90 is set down at 686, while the year previous gives the better result of 757, showing a falling of by 71 in the closed season. It is almost needless to do more than allude to the fact that both members and recruits aspiring to certificates of efficiency can only attain these by making themselves thoroughly conversant with their drill, a perfect knowledge of which paves the way for the examination held every year and to the successful candidates in which certificates of proficiency are awarded. Mondays, Wednesdays, and Fridays are set apart during the season for drill instruction, which is imparted by special instructors deputed for the purpose from the Regulars. The total of efficients and extra-efficients for the last season numbered 686, including the Bombay Light Horse, while the year previous showed the larger total of 787. Since the opening of the last season the average attendance at Commanding Officers' parades has been considered very good, and it is to be hoped that the report of the present season will show, if not a better, at least a similar satisfactory result.

The Volunteer movement has without doubt met with success in Bombay, and the truth of this is declared when the season commences. Ere many have left their homes in the morning a detachment of the Bombay Light Horse may be seen at drill on the field fringing the Back Bay between the Marine Lines and Churney Road Railway stations. The distant boom of heavy guns reminds that the Volunteer Artillery are at work and trying their skill on either Cross Island, Oyster Rock, or some other fort, so as to be prepared, if brought into action, to meet an approaching enemy from the sea, and prevent her entry to the harbour. Bombay without doubt can put a fine show of Volunteers into the field and it will be the pride of the city if she succeeds in outstripping the cities of other Presidencies by showing superior numbers on her rolls. On the 6th of March of this year the Rifles took part in the final parade, held by H. R. H. the Duke of Connaught, who commanded the Bombay Army and lined the streets on those occasions when H. R. H. Prince Albert Victor of Wales and H. E. Lord Harris arrived in Bombay. In the rehearsal of the defence of Bombay the Rifles were called upon to support the 2nd Battalion of the Durham Light Infantry, when the torpedo boats concentrated their attack on the Mahaluxmi sea-face and were successful in causing the enemy to retire before a brisk fire. On this occasion both the Bombay Light Horse and Volunteer Artillery were called into requisition and did some valuable service. The Light Horse scoured the sands along the Worli and Mahim woods. The last inspection by Colonel Collingwood was quite a success with the only exception that some rifles and accoutrements were found to be very dirty and not a few slings sorely needed the application of pipeclay and elbow grease. Both the B. B. & C. I. and G. I. Railways have got their Volunteer Corps who generally participate in the grand parades and reviews held on the *Maidan*.

In referring to the efficiency of company drill we must not fail to mention the numerous prizes that are offered for the highest scores made at the ranges, the practice of which is of the highest importance to the Corps from the fact of its members being soldiers. The commanding officer and captains of companies come forward with prizes in the shape of cups, shields, and sums of money as an incentive to visit the ranges regularly, and try to improve the results year by year. In the "Bayley Shield" competition for the last season in which ten members competed, the "D" Company carried it off with 621 points out of a possible of 840, at distances of 150, 300, and 500 yards. Their record for 1888-89 was 634 points at the same ranges. It may be of interest to mention that this Company held the Shield for four years consecutively, which evidently establishes the fact that their Company possesses the best shots in the corps. The "A" Company followed second with 601 points in the same competition. For the "Wyer Cup" "D" Company again led off with 415 points out of a possible of 560, at distances of 700 and 800 yards. Next on the list came "A" Company, with a total of 335, showing a wide difference of 76 points behind the winners of the cup. It must be understood that these were not the only companies that entered for the competitions. We merely mention them as instances of the two highest scores attained at the ranges from 150 to 800 yards and as an inducement to members to make frequent use of their arms, which will eventually ensure greater precision at the targets. Prizes are also given for the highest number attained in attendance at the weekly parades during the season. Company matches are also fired at Coorla, and prizes are awarded for the highest number of points. We thus see that there is no lack of encouragement afforded by the staff of the Regiment to induce their men to become efficient marksmen, and to remind them that it should be the aim of every Volunteer by efficiency in shooting to do his utmost towards obtaining a good figure of merit in the use of his rifle at the ranges.

THE BOMBAY GUJERATI HIGH SCHOOL.

A MEETING of leading Gujerati citizens of Bomb[illegible]a connection with the above institution, which was started a little over three months ago, was held last Sunday evening, under the presidency of the Honourable Mr. Javerilal Umiashankor Yajnik. Among those present were the Honourable Mr. Yajnik, R. B. Krishnamukhram Atmaram Motha, Mr. Gheldabhai Haridas, R. B. Dalpatram Pranjiwandas, Khakhar, R. S. Varajraj Santoobrai Desai, Messrs. Dayabhai Tapidas Varjdas, Vijbhookhandas Atmaram, Tribhowandas Mangaldas Nathubhai, Jamietram Nanabhai Haridas, Occhavram Nanabhai Haridas, Hardevram Nanabhai Haridas, Narandas Purshotamdas, Rajaram Govindram, Kalianji Naranji, Amoolakh Shivdas Jhaveri, Ichaaram Suryaram Desai, Motilal Dulpatram Desai, Tribhowandas Narotamdas Molvi, and others.

The Honourable Mr. Javerilal, having been proposed to the chair said :—Gentlemen,—You have been invited here this evening to consider certain proposals and suggestions affecting the welfare of the school in which we have met. This is the Bombay Gujerati High School. It was established three months ago by private enterprize. Its proprietors are Messrs. Motiram Surbhai Metha and Mulshanker Jayashanker Vyas. Mr. Motiram is a Graduate and Mr. Mulshunker an Under-Graduate of our University. They have been encouraged in their attempt by the example and remarkable success of the New English School in Poona. Their object in starting this school was to enable boys, especially those whose mother tongue is Gujerati, and whose parents are not in a condition to pay the high scale of fees current in Government and aided schools, to receive the benefits of secondary and higher education. Such boys would have to forego these benefits but for the means of education that this school is designed to afford. I am glad to say that in carrying out this object the proprietors have attained a measure of success far beyond their sanguine expectations. They did not imagine that they would be able to secure the attendance of at least 150 boys before a year was out—especially because the school was opened in the middle of the school year—but to their astonishment they find this number reached in course of the three months of the existence of this school. And the number of admissions has been increasing from month to month. They already begin to see that they are meeting a felt want. All that is needed to develop the school is greater publicity as to the existence of such an institution and the objects sought to be attained by it. One of the objects these young and enterprising proprietors have in view is to prepare boys for the Matriculation and the School Final Examinations in course of five years from the commencement of the first standard in English. You are aware that in Government and aided schools the course of study runs over seven years. The standards of study have been so arranged by the proprietors that the whole course can be gone through by the boys without any heavy strain upon their mental faculties. A noticeable feature of this five-years' course is a compulsory study of the boys' vernacular, namely, Gujerati. The boys will not thus take leave of their mother tongue at the fourth standard as do boys in many of the Government and aided schools at present. It is gratifying to know that the proprietors have succeeded so far without any outside pecuniary help. A very moderate allowance suffices to repay their own labours. It seems to me that Messrs. Mehta and Vyas have shown a spirit of self-sacrifice and self-reliance which is indeed very praiseworthy. If they go on in the way they have begun I am sure their efforts will be well rewarded in the end. As I said before, they do not look forward to Government either for pecuniary help or control. But it is their desire that some of the leading members of the Gujerati speaking community of Bombay should help them by way of exercising some control over the school, and by such advice and help as they may be in a position to give. A claim for such control, advice, and help, the proprietors have, I think, fairly made out on the well-to-do section of our community, and I am sure you will not grudge to give your helping hand to them. Our leaning, no doubt, as a community, is towards industrial and commercial pursuits, but such pursuits will be most materially helped by the sound education that our boys receive—an education which will make them intelligent men, better members of society, better citizens, better able to live life as intelligent and rational beings, in short, as better *men*. (Applause.) I will now call upon Mr. Motiram to put before you such proposals as he may have to **make.**

Mr. Motiram then said :—Gentlemen,—Hoping to be excused for the trouble we have given you, I proceed to lay before you the scheme adopted in our High School. The first peculiarity is that we propose to complete in five years the course which most other schools take full seven years to do. This declaration may, at first, seem startling. But I hope that if you attend to the following facts, you will soon be convinced of its possibility. A pretty long time before our school was opened, Rao Bahadur Krishnamukhram Atmaram, a gentleman who has had a great deal of educational experience, had advocated the same measure before the enlightened public of Surat. Another fact to which I call your attention is that according to the reliable information that we have received, the Poona New English School does the same with boys who are well up in their vernacular studies. As this mixture is pleasant to the taste and warranted free from anything injurious to the most delicate constitution of either sex, the Proprietors solicit sufferers to give it a trial to test its value.

"It is entirely free from any poison or metallic impregnation, does not contain any injurious ingredient and is a good safe, and useful medicine.—ALFRED SWAINE TAYLOR, M.D., F.R.S., Lecturer on Medical Jurisprudence and Toxicology."

"The Hon. Surgeon to His Excellency the Viceroy of India prescribes Clarke's Blood Mixture largely, and speaks highly of its efficacy in skin affections, &c. On this account we wrote asking if you could supply the Mixture for dispensing purposes."—Letter from A. John & Co., Druggists, &c., Agra, India, June, 1888.

West Cowes, Isle of Wight, September, 1888.

"Dear Sirs,—Through the merits of your excellent Clarke's Blood Mixture the large red pimples which covered my face are fast disappearing. For a long time I put up with the discomfort of these pimples thinking that nothing would do any good. At last I was persuaded to try your medicine, and now I have taken one bottle they are rapidly vanishing. It cannot be too highly recommended, and I am most grateful. I will tell all my friends about it, but they really do not require telling because they can see the difference for themselves. You may publish this if you like.—I am, gratefully yours,

"ISLA GERALDINE RIPON."

Edmund Yates, *"His Recollections & Experiences,"* Vol. I., page 251, says:—

I COULD not afford good wine, and would not give bad; but there was some Irish Whiskey which I procured through Mayne Reid ("BUSHMILLS" was its name), which was highly esteemed.

Writing in the *World* of Dec. 22, 1886, he says:—

MENTION made, in certain *Reminiscences* of mine, of a pleasant and wholesome alcoholic stimulant, called **"Bushmills Whiskey,"** has led the proprietors of the famous Distillery to assure me that their alcohol is still extant in its pristine excellence, and, to confirm the assurance, send me a specimen of their produce. "All taps," we are assured by Mr. Stiggins, "is wanity;" but I am glad to find that a favourite "wanity" of my youth is as mellow and as innocuous as when first introduced to my notice by my old friend, Captain Mayne Reid.

SPECIAL NOTICE TO MANUFACTURERS OF

AERATED WATERS

Hay's Soluble Essences are Guaranteed to be the Finest in the Market.

HONOURABLE MENTION: International Food Exhibition, London, October, 1880.

GOLD MEDAL: Society of Arts, Paris, 1883.

The difference between preparations made from **Hay's Essences** and those made from the numerous spurious imitations of them bearing the name of Soluble Essences, is most marked, and no Manufacturer using the latter can compete with one using **Hay's Preparations**, as is universally known.

GINGER CHAMPAGNE.
(Made from Hay's Essence).
"An excellent and most agreeable beverage."—*The Lancet.*
"Mr. Hay has caught the fine Aroma of Ginger with remarkable success. It is equally sparkling but more refreshing than its rival, the Royal French Beverage."—*The Chemist and Druggist.*

GINGER ALE.
(Made from Hay's Fortified Essence.)
"It pours out with as fine a 'head' as any glass of ale, and possesses all the fine aromatic flavour of the pure Ginger."—*The Chemist and Druggist.*

HAY'S SOLUBLE ESSENCE OF JAMAICA GINGER. A Pure Essence of the Finest Ginger, perfectly free from Capsicum. Highly adapted for the manufacture of **Transparent Aerated Waters**, and for all Dietetic, Medicinal and Pharmaceutical purposes. Trade Price, 5s. per lb.; 12 lbs. and upwards, 4s. 6d. per lb.

***HAY'S COMPOUND FORTIFIED ESSENCE OF JAMAICA GINGER.** For First Quality Ginger Ale. Specially prepared for the manufacture of the very Finest Ginger Ale made, is an addition of Vanilla, Lemon, and other flavours to the above. It imparts, with the exquisite Ginger Aroma of the above-mentioned Essence, a peculiarly fine fruity flavour, combined with the fullest amount of fragrance and pungency. Trade Price, 5s. 6d. per lb.; 12 lbs. and upwards, 5s. Quantity required, 5 fluid ozs. to each gallon of Syrup, making 106 10-oz. Bottles.

HAY'S GINGER ALE EXTRACT. For Second Quality Ginger Ale. This Extract is strongly recommended for the manufacture of Ginger Ale, to which it imparts Pungency, Colouring, great Brilliancy, and an unusually Fine Ginger Flavour and Aroma, and makes a showy and good article. Trade Price, 4s. 6d. per lb.; 12 lbs. and upwards, 4s. Quantity, 3 fluid ozs. to each gallon of Syrup, making 106 10-oz. Bottles.

HAY'S GINGER ALE ESSENCE. Highly Concentrated. For Third Quality Ginger Ale. This Essence, which is a complete Bouquet of Flavours in a highly concentrated state, makes a Ginger Ale possessing an amount of aroma, flavour, and quality that will be sure to command a large sale, and that is unsurpassed by the so-called finest Belfast Ginger Ale. Trade Price, 9s. per lb.; 12 lbs. and upwards, 8s. 6d. Quantity required half a fluid ounce to each gallon of Syrup, making 106 10-oz. Bottles. This Essence will be found most valuable to the general trade.

***HAY'S GINGER CHAMPAGNE ESSENCE.** For the manufacture of Ginger Champagne. This Essence is a combination of the finest flavours, and imparts with the Ginger a most exquisite aroma, making a most delicious and refreshing approximation to Champagne. Trade Price, 8s. per lb.; 12 lbs. and upwards, 7s. 6d. per lb. Quantity required, 10 fluid ozs. to each gallon of Syrup, making 106 10-oz. Bottles.

***HAY'S SOLUBLE ESSENCE OF MESSINA LEMONS.** A magnificent Preparation, perfectly soluble, and makes the finest Lemonade obtainable. Trade Price, 8s. 6d. per lb.; 12 lbs. and upwards, 8s. "Added in the proportion of 1 fluid oz. to each gallon of Syrup, the Soluble Essence imparts the most delicious flavour of the Lemon."—*The Chemists' Journal.*

HAY'S LEMON FLAVOUR. (Perfectly Soluble). Trade Price, 5s. per lb.; 12 lbs. and upwards, 4s. 6d. Quantity required, one and a half fluid oz. to each gallon of Syrup, making 106 10-oz. Bottles.

***HAY'S HOP ALE ESSENCE.** This Essence is made from the Choicest Hops grown, and is unrivalled for its peculiarly fine Hop Flavour and aroma. Hop Ale made from this Essence has the full flavour of the finest Hops, and is a really appetizing Bitter Beer. Trade Price, 8s. 6d. per lb.; 12 lbs. and upwards, 8s. Quantity required, two fluid ozs. to each gallon of Syrup, making 106 10-oz. Bottles.

**NOTE.—The above are specially recommended to Clubs, Hotels, Messes, and Stores requiring the very finest Essences obtainable. There is nothing in the market to equal them.*

W. HAY (MANUFACTURING CHEMIST TO AERATED WATER MANUFACTURERS) **HULL, ENGLAND.**

Indentors, to prevent disappointment, should specify that the Goods are to be of Hay's manufacture.

The greatest care is used in packing for export to India; if in 1 lb. Glass Bottles (recommended for finest Essences), the cost of packing and delivering free on board ship at Hull, London, or Liverpool, adds about 7½ per cent. to the cost.

HAY'S LEMON FLAVOUR. (Perfectly Soluble.) An exceptionally fine Essence, giving full flavour of the fresh fruit. Trade price, 5s. per lb., 12 lbs. and upwards, 4s. 6d. Quantity required, one and a half fluid oz. to each gallon of Syrup, making 106 10-oz. Bottles.

IMPORTANT TO ALL.

ENO'S "FRUIT SALT"
is absolutely necessary for the preservation of Health.

YOU cannot overstate its great value in keeping the BLOOD PURE; as a means of keeping the system clear, and thus taking away the groundwork of Malarious Diseases, BLOOD POISONS, and all Liver Complaints, or as a HEALTH-GIVING, REFRESHING, COOLING, and INVIGORATING BEVERAGE, or as a gentle Laxative or Tonic in the various forms of Indigestion ENO'S "FRUIT SALT" is invaluable.

IT IS THE BEST PREVENTIVE AND CURE FOR

Biliousness.	Sick Headache.	Unnatural Excitement.
Mental Depression.	Giddiness.	Errors in Diet.
Skin Eruptions.	Liver Derangements.	Thirst, &c.
Constipation.	Feverishness.	Impure Blood.

A SPARKLING AND REFRESHING DRAUGHT.—Notwithstanding its medicinal value, the "FRUIT SALT" must be looked upon as essential as breathing fresh air, or as a simple and safe beverage under ALL CIRCUMSTANCES, and may be taken as a sparkling and refreshing draught in the same way as Lemonade, Soda Water, Potass Water, &c., only it is much cheaper and BETTER, IN EVERY SENSE OF THE TERM, TO AN UNLIMITED EXTENT.

HEALTHY BILE.—When the liver is not making healthy bile, or insufficient quantity, the blood becomes impure—the groundwork of disease, and produces constipation, dyspepsia, biliousness, headache, &c. ENO'S "FRUIT SALT" is the best remedy.

ENO'S "FRUIT SALT" *versus* BRANDY.—"There were a few attacks of mild dysentery, brought mainly on by ill-considered devotion to brandy, or biliousness produced by the same cause. For the latter we used ENO'S 'FRUIT SALT,' which is simply invaluable."—*Coral Lands*, Vol. I.

HOT COUNTRIES.—ACIDITY OF THE STOMACH, &c.—"I have personally used ENO'S 'FRUIT SALT,' and know it not alone to be excellent, but really invaluable. Especially must this be the case in the hot countries of the East, where Acidity of the Stomach, Biliousness, and Fevers are so common."—J. M. PEEBLES, M.D., Author of *Around the World, Travels in Polynesia, China, India, Arabia, Egypt, &c., &c.*

THE SECRET OF SUCCESS.—"A new invention is brought before the public, and commands success. A score of *abominable imitations* are immediately introduced by the unscrupulous, who, in copying the original closely enough to deceive the public, and yet not so exactly as to infringe upon legal rights, exercise an ingenuity that, employed in an original channel, could not fail to secure reputation and profit."—ADAMS.

CAUTION.—*Legal Rights are protected in every civilised country. Examine each bottle and see that the Capsule is marked ENO'S "FRUIT SALT." Without it you have been imposed on by a* WORTHLESS IMITATION. *Sold by all Chemists, &c. Prepared only at* ENO'S "FRUIT SALT" WORKS, Pomeroy St., London, S.E., by J. C. ENO'S Patent.

DR. DE JONGH'S
KNIGHT OF THE ORDER OF LEOPOLD OF BELGIUM
KNIGHT OF THE LEGION OF HONOUR
LIGHT-BROWN COD LIVER OIL

THE PUREST. THE MOST PALATABLE. THE MOST DIGESTIBLE. THE MOST EFFICACIOUS.

Incontestably proved by Thirty Years' Medical Experience to be *The only Cod Liver Oil which produces the full curative effects in* CONSUMPTION AND DISEASES OF THE CHEST, THROAT AFFECTIONS, GENERAL DEBILITY, DISEASES OF THE SKIN, WASTING DISEASES OF CHILDREN, RICKETS, AND ALL SCROFULOUS DISORDERS.

SELECT MEDICAL OPINIONS.

SIR G. DUNCAN GIBB, Bart., M.D.,
Physician to the Westminster Hospital.
"The value of DR. DE JONGH'S LIGHT-BROWN COD LIVER OIL as a therapeutic agent in a number of diseases, chiefly of an exhaustive character, has been admitted by the world of medicine; but, in addition, I have found it a remedy of great power in the treatment of many Affections of the Throat and Larynx, especially in Consumption of the latter, where it will sustain life when everything else fails."

DR. SINCLAIR COGHILL,
Physician to the Royal National Hospital for Consumption, Ventnor.
"I have convinced myself that in Tubercular and the various forms of Strumous Disease, DR. DE JONGH'S LIGHT-BROWN COD LIVER OIL possesses greater therapeutic efficacy than any other Cod Liver Oil with which I am acquainted. It was especially noted, in a large number of cases in which the patients protested they had never been able to retain or digest other Cod Liver Oil, that DR. DE JONGH'S OIL was not only tolerated, but taken readily, and with marked benefit."

JOSEPH J. POPE, Esq., M.R.C.S.,
Late Staff Surgeon, Army, Professor of Hygiene, Birkbeck Institution, London.
"I found during my Indian experience that the worth and character of DR. DE JONGH'S LIGHT-BROWN COD LIVER OIL remained unchanged by tropical heat or foreign climate, and it was, from its uniformity of character, particularly adapted for long-continued administration. The value of 'hydro-carbons' in all debilitated states of the system is now becoming thoroughly recognized; and it is, without doubt, from the animal oils and fats, rather than from their vegetable substitutes, that we may hope to derive the surest benefit. The Oil of DR. DE JONGH places in everyone's reach a reliable and valuable remedy, one that cannot be *too* widely recognized."

DR. R. C. CROFT,
Author of "Handbook for the Nursery."
"DR. DE JONGH'S LIGHT-BROWN COD LIVER OIL is almost a specific in many of the Diseases peculiar to Infancy and Childhood, and I have seen marked benefit produced by its use. Patients prefer it to the Pale Oils, and are able to retain it more comfortably."

DR. DE JONGH'S LIGHT-BROWN COD LIVER OIL is supplied ONLY in IMPERIAL Half-Pints, Pints and Quarts, sealed with BETTS'S Patent Capsule impressed on the top with DR. DE JONGH'S Stamp, and on the side with his Signature, and the Signature of ANSAR, HARFORD & Co.; and bearing under the wrapper a Label with the same Stamp and Signatures.

Dr. Lalor's Trade Mark PHOSPHODYNE is Registered under the Trade Marks Act for the INDIAN EMPIRE, and attested by the Seal of the Registrar, Calcutta.

DR. LALOR'S PHOSPHODYNE.

HEALTH, STRENGTH, AND ENERGY.

For TWENTY FIVE YEARS has maintained its world-wide reputation as the ONLY SAFE RELIABLE PHOSPHORIC REMEDY ever discovered for the Permanent Cure of Brain Wreckage, Paralysis, Sleeplessness, Harassing Dreams, Premature Decay of Vital Power, and all Functional and Diseased Conditions of the System, dependent upon the Deficiency of the Vital Forces.

IT CURES Dyspepsia, Nerve, and Heart Disease.
CURES Kidney and Liver Complaints.
CURES all Blood Disorders.
CURES Consumption and General Debility.
CHECKS all Wasting of the Vital Forces,
From whatever cause arising.

The EFFECT of this Standard PHOSPHORIC Remedy in Nervous Debility and its kindred Evils is immediate and permanent, all the Miserable Feelings and Distressing Symptoms disappearing with a rapidity that is Really Marvellous,

DR. LALOR'S PHOSPHODYNE

Actually creates New Nervous Fluid and Brain Matter by supplying the Blood with its Electric Life Element—PHOSPHORUS, the very Core and Centre of the Brain itself, restoring the fullest and most vigorous conditions of Robust Health of Body and Mind, and whilst pleasant to the taste, never fails to Purify and Enrich the Blood, and thoroughly invigorate the Brain, Nerves, and Muscles. Its energising effects are shewn from the first day of its administration by a Remarkable Increase of Nerve and Intellectual Power, with a Feeling of Courage, Strength, and Comfort, to which the Patient has long been unaccustomed. Digestion is invigorated. The Appetite increases wonderfully. The bowels become regular. Sleep becomes calm and refreshing. The face becomes fuller, the Lips red, the Eyes brighter, the Skin clear and healthy, and the Hair acquires Strength, showing the importance of its action on the Organs of Nutrition.

NOTICES.

Rowland's Macassar Oil

Has been known for 100 years as the best preserver and beautifier of the hair: it prevents it falling off or turning grey, strengthens weak hair, and eradicates scurf and dandruff; it is unsurpassed as a brilliantine for the beard and moustaches, to which it imparts a soft and silky appearance: it is also sold in a golden colour for fair-haired children.

Rowland's Kalydor

A soothing and emollient milk for the face, and is most cooling to the skin in hot climates; it removes freckles, tan, sunburn, roughness and redness of the skin, pimples, cutaneous eruptions, &c., and produces soft fair skin, and a lovely delicate complexion.

ROWLAND'S ESSENCE OF TYRE, a harmless preparation for dyeing red or grey hair a permanent brown or black. Ask chemists and druggists for Rowland's articles, of 20, Hatton Garden, London, England, and avoid worthless and injurious imitations.

CASCARADYNE
The New Fruit.
REGISTERED TRADE MARK.
NATURE'S REMEDY FOR CONSTIPATION.
PLEASANT TO TAKE. GREATEST OF ALL ACTIONS.
WITHOUT A RIVAL FOR CONSTIPATION.
Opinions of the Medical Press.—"We have found it to be a boon in cases of *Chronic Constipation*, and have found them to effect their purpose most satisfactorily."—*The Lancet*, Oct. 25th, 1884.

THE NEW FRUIT
ACTS on the LIVER.

Not only acts on the bowels, but the charm of its action is that from its invaluable great tonic properties, it at once gives time for the system to recover its natural action, and thus prevents any tendency to nature its long (and pernicious) habit of taking purgatives. The New Fruit effects this by creating a natural action of the bowels and kidneys combined.

Such diseases as Biliousness, Sick Headache, Constipation, Dyspepsia, Dizziness, Flatulence, Piles, Indigestion, Rheumatism, Loathings of Food, Neuralgia, &c., are well known to originate from Constipation.
